Loader Mount Square Bale Processor

GET A SQUARE DEAL UPFRONT

**Sometimes having all your work
ahead of you is a good thing.**

The Boss I is a square bale processor that mounts on your skidsteer or tractor loader combining adaptability with accessibility. Now you can feed and bed in the tight spots that are nearly impossible to get to with a trail behind processor. From feeding to bedding, this hydraulically driven processor is ready to take charge.

Boss I

Get a Square Deal Upfront

Easy Scoop N' Go Loading

Bunker Feeding

Windrowing

Features

Dual top paddle rollers

The aggressive dual top paddle rollers make sure you get a consistent feed of the bale.

Adjustable chute

The variable position chute allows you to go from bedding, to feeding, to windrowing.

Last flake kicker

This unique feature makes sure the boss I finishes the job, kicking the last flake into the flails.

Skidsteer / Loader mount

A quick attach makes connections a breeze

Flail rotor

The Boss I has 12 flails to provide consistent processing performance.

Hydraulic drive

The adjustable hydraulic drive gives you total control of bale processing.

Specifications

- **Min hyd. flow:** 12 gpm
*for optimal spreading performance high flow is recommended
- **Weight:** 1200 lbs
- **Width:** 104"
- **Length:** 58"
- **Height:** 52"
- **Bale sizes:** 32" x 34" and 34" x 48", up to 84" long

The unique loader-mount design means you can raise the Boss I above gates and pens giving you greater control of where the bale ends up. The versatility of a loader mounted unit makes operating it easier and more comfortable. Because the Boss I is upfront, loading bales is quick and simple, just Scoop N' Go.

The Boss I handles mid size square bales up to 7 feet long. By simply adjusting the distribution chute your Boss I is now ready to go from bedding straw, to fence-line feeding, to filling bunkers, to windrowing large bales for rebaling.

Put hard work behind you and get a Boss I upfront.
